Profile

I am a computer engineer & looking for a job to work in a challenging & a creative environment. Being a computer professional as well as a creative person I always try to find the opportunities to contribute in the organizational work as well as for my own personal development through my work. No organization will be remorseful by hiring me. I would certainly like to work in your company & will work with dedication & honesty & will definitely add more values to your great firm.

Education

Bachelor of Engineering (B.E.),

08/2018 – 08/2022 | Pune, India

Sinhgad College of Engineering, Vadgaon

First Class with Distinction.

SGPA: 9.66

CGPA: 8.66

12th, Mudhoji Highschool & Jr. College, Phaltan

2017 – 2018 | Phaltan, India

Maharashtra State Board (HSC)

Total score: 77.33%

Skills

Java, Python, Django, React JS, HTML, CSS, Javascript, SQL, OOPS, MS Office, Corel Draw, Leadership, Communication, Time Management

Projects

Drowsiness Detection System using Machine Learning,

09/2021 – 05/2022

Python, Django, Machine Learning, HTML, CSS, Javascript, SQL lite

- This was our final year project. In this project, we created a system which can capture the images of the user (basically a driver) & analyze his/her eye-iris angle using Euclidean Distance Formula & some machine learning classification algorithms like CNN (Convolutional Neural Network) & Naive Bayes's Classification Algorithm. Based on the analysis, an alert was raised warning the driver.
- We had used Python on a large scale for this projects. We used various libraries of python like KERAS, TENSORFLOW, MATPLOTLIB, NUMPY, PANDAS, etc.
- The project was also published in IEEE research magazine.

I was the team leader for this project. Being the leader of the team, I successfully handled the project building & also succeeded in managing the team, which in turn, taught me various aspects of the leadership & management.

OneBase Music Player, HTML, CSS JavaScript

2022

- I created my own music player named OneBase, an application which can store & play the songs just for you, without any interruption of ads & promotions.
- This was a self-made project of mine. I included almost all the basic features of a music player in this project & it also provides the user friendly experience.
- I created this excellent working website along with a wonderful user interface by using HTML, CSS & Javascript only.

Emojify: Create your Own Emoji,

08/2020 – 05/2021

Python, ML, Django, HTML, CSS, Javascript

- This was my project in the third year of engineering. It was a team project & I was the team leader for this project.
- We developed a system which could capture the images of the user through the webcam of the user's system & corresponding to the expression of the user having, an emoji is generated on the screen.
- There was total 7 human emotions that we took into the consideration during this project.
- We also used some machine learning algorithms & classifiers to make this system more accurate & reliable.
- The application of this system can be extended to a very level & also to analyze the user experience of a particular software he/she is using.

Portfolio Website, HTML, CSS, JavaScript

2022

I have also created my own portfolio website. This was my self made project & the purpose of this project is to make my every important info available on internet for the people who wants to know more details about me. This was a very multipage web project, have a nice & clean UI containing more details about me.

Certificates

- Core & Advanced Python Programming Certificate by Remakr Skill Academy
- E Cell IIT Hyderabad Python Programming Certification
- Online Internship with Remark Skill in Python Programming

Extra-Curriculum

Media & Entertainment,

09/2020

SST Creations, Black Coat Entertainment [↗](#)

As per my own quote, "There is an art inside every heart", I also possess passion about the art & philosophy. From starting my YouTube channel to winning the best director award, it was all exciting. This led me to explore the things that were beyond my engineering carrer. In May, 2021, I had my first debut in film making as a writer & director. I have written & directed one of the most popular inspirational-poetry drama named 'Vijay'. It proved a big success for me & it was nominated in 15 film festivals & won 9 awards, including national-international awards.

Started my own Production House:, SST Film Creations

07/2021

After the great success of 'Vijay', I started my own production house named SST Film Creations. There are various projects that we have accomplished, many of them proven successful.

Desktop Publishing:

09/2013

I have a very good experience of digital creation & advertising. I used to create the advertising templates, visiting cards, pamphlets, company leaflets & everything that is needed in digital world. I have started this work at the age of 14, when I completed my DTP course.

Interests

Coding, Script Writing, Film Direction, Graphic Designing, Video editing, Gaming, Gymming, Travelling, Reading Novels, Listening songs

Languages

English

Hindi

Marathi
